

## Suggested reading list

The 2 most frequently recommended books for novice astronomers are:

**Nightwatch: A Practical Guide to Viewing the Universe**, 4<sup>th</sup>. Edition, by Terence Dickinson, pub. Firefly Books, 2006

**The Backyard Astronomer's Guide**, 3rd Edition, by Terence Dickinson and Alan Dyer, pub. Firefly Books, 2008.

For a description of the discoveries that transformed our understanding of the cosmos an excellent book is:

**Archives of the Universe**, by Marcia Bartusiak, pub. Vintage, 2006, ISBN-10 : 9780375713682.

**SkyNews magazine**, published bi-monthly by RASC, available free to members and on newsstands. Each issue contains feature articles on observing and astronomy science, a seasonal star chart, stunning celestial photos, expert equipment advice, and the latest news from the world of astronomy.
